Transform

Yeast
water
sugar
salt
oil
flour

mix
knead
rise
bake

sugar → Yeast → CO_2 Bread rises

→ Alcohol

Fermentation

Gluten   Flavor

Symbol

sugar   yoast   → CO_2
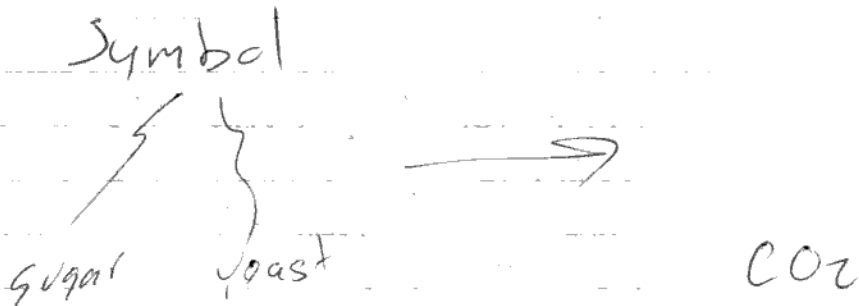

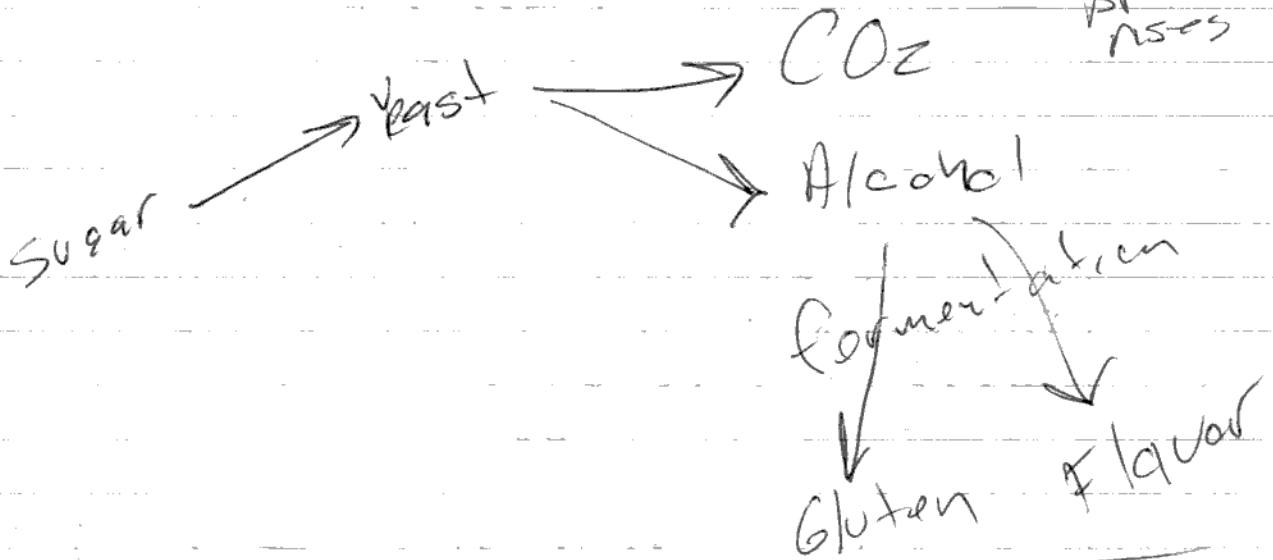

Sugar is a locked set of more basic elements

Yeast unlocks the set to produce different locked sets

These sets can be represented by a symbol ~~in that they~~ ~~run~~ through some range of external conditions where they remain locked.

Symbols ⟶ Transform ⟶ Symbols

the internals define the transform even though transform can be modeled w/ symbols
